

# PERCEPTO

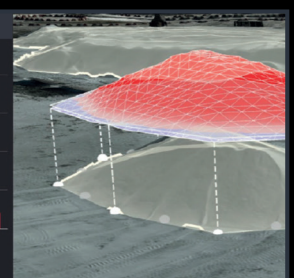

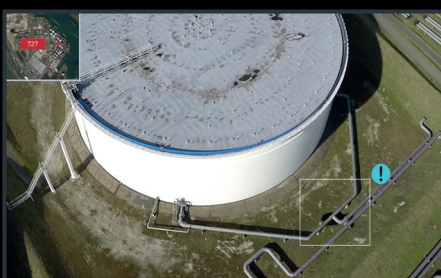

## Percepto AIM for DJI

Percepto Autonomous Inspection and Monitoring (AIM) is a software solution empowering your team to deliver actionable insights from every flight

## Boost your drone program with AI, autonomous flight and reports

- **Quick and easy setup**  
Plan your missions on your PC and launch autonomous flights via the Percepto AIM app
- **Automated data collection**  
Consistent and persistent data collection and flight plan, operator agnostic
- **Automated data upload**  
Data is automatically uploaded and saved in the correct location on the cloud
- **Unified visual data**  
Geo-tagged data collected from DJI is fused with data from additional sources
- **Reports and insights**  
Analysis automatically starts to generate AI-powered insights and reports
- **Effective collaboration**  
Easily share insights with other stakeholders for effective collaboration

# A new era of managing your drone fleet

## Autonomous.

Automate drone flights, data collection, upload, and insight creation

## Intelligent.

Gain AI-powered insights and reports, automatically created for every flight

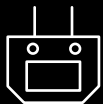

## Simple.

Request insights from anywhere in the world, and let Percepto AIM do the rest

## Maximize your DJI fleet with Percepto AIM

**1 Mission planning**  
Create a mission once

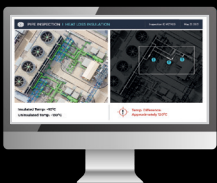

**2 Deployment**  
One-click to deploy using Percepto AIM app

**3 Data collection**  
Automated data collection, geo-tagging, and upload to Percepto AIM

**4 Data analysis**  
Automated AI-powered analysis provides actionable insights and reports

**5 Collaboration**  
Easily share insights with relevant stakeholders

### Compatible DJI models

- Matrice 300
- Mavic 2
- Mavic 2 dual
- Mavic 2 pro
- Mavic 2 enterprise advanced
- Phantom 4

### Supported controllers

- DJI Smart Controller
- Galaxy Tab S6 lite + Mavic 2 series controller
- Galaxy Tab S6 lite + Phantom 4 controller

**Our team of drone experts will support you every step of the way**

- Streamlined onboarding
- Seamless deployment
- Customized training
- 24/7 support
